RE: Ranch Unit #3

Dear Mr. Dewey:

Thank you for your inquiry regarding assigning the referenced Ranch Unit to another entity and how to go about acquiring an easement for either a private roadway or waterline on this same property.

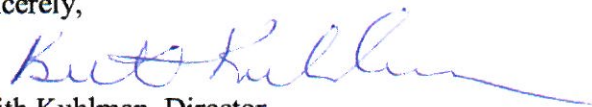

First, this Ranch Unit is assignable to any legally recognized person or entity. If the entity is a corporation it must be a farming corporation as defined by Oklahoma statutes (>60% income derived from farming/ranching or mineral income). The rental must be paid current. To begin the assignment process you will need to write the CLO a letter stating you want to assign the lease to a certain person/entity along with their, mailing address, phone # and SS# or FEI#.

We will then prepare the assignment papers, send them to you to get the appropriate signatures. You will also need to provide a bill of sale showing the sale of all personal property or your desire to remove all personal property from the lease. No fee is required for this assignment.

To acquire an easement for either a roadway or water pipeline across the property, a person/entity will need to submit an application to the CLO for the intended use. There is a \$350 application fee. The application must have a centerline survey of the roadway or pipeline attached. All easements for these type uses are 20 years with renewal rights. The price paid for the easement is based upon an appraisal of the easement.

Please let me know if you need additional information regarding either assigning the lease or obtaining an easement across the property.

Sincerely,

A handwritten signature in blue ink, appearing to read "Keith Kuhlman", with a long, sweeping underline.

Keith Kuhlman, Director
Real Estate Management

STATE KS ZIP 67835

1.2. RENTAL DUE DATE.

Annual rent is due January 1st of each year.

1.3. NOTICES.

All notices shall be in writing and considered properly given if mailed by certified mail, postage prepaid, addressed as follows:

LESSEE(S): Address shown above

CLO: Commissioners of the Land Office
Paragon Building, Suite 200
5801 N. Broadway
Oklahoma City, OK

Mailing Address:
P.O. Box 26910
Oklahoma City, OK 73126

1.4 DELIVERY, CHANGE OF ADDRESS.

Notices and communications shall be considered effective on date delivered or refused. In the event of change of address written notice is required to be given to the other party.

II RESERVATIONS

2.1. INTERPRETATION, VENUE, TRUST OBLIGATION.

This lease shall be interpreted in accordance with laws of the State of Oklahoma. Lessee agrees any dispute or litigation with CLO in relation to this lease contract shall be conducted in Oklahoma County, CLO's official residence. Terms and conditions of the lease contract shall be construed in favor of CLO as part consideration for this lease and in recognition of the obligation CLO has to protect Trust assets while maximizing economic return.

2.2. LEGAL SUBORDINATION.

This lease will be subordinate to and Lessee will comply with laws, Court Orders, policies, procedures and rules, existing and future, relative to the operation and management of the Oklahoma School Land Trust.

2.3. INVITATION TO BID.

The "Invitation To Bid at Public Auction" is incorporated by reference and is made a part of this contract.

2.4. SALE OF LAND/COMMERCIAL DEVELOPMENT.

CLO reserves and excepts the right to sell, exchange or commercially develop all or part of leased premises. If all of leased premises is sold, exchanged or taken for commercial purposes, this lease shall terminate and Lessee shall deliver possession of premises to CLO as notified. If part of leased premises is sold, exchanged or commercially developed, Lessee shall deliver possession of premises to CLO as notified. CLO agrees to reduce annual rental proportionately in relation to original appraisal of surface retained by Lessee for remainder of lease term or, at the option of the Lessee, lease shall terminate. Adjustment in annual rental will be made only if amount exceeds twenty-five (\$25.00) dollars.

2.5. CROP AND IMPROVEMENT DAMAGES.

Agricultural Lessee may recover crop and improvement damages, if any, for remaining term of the agricultural lease contract as affected by paragraph 2.4 above from purchaser, condemnor, or developer. Lessor is entitled to all other damages and compensation.

2.6. MINERALS, ACCESS EASEMENT.

CLO reserves and excepts to itself, its lessees, permittees and assigns, an easement with

right of ingress and egress for purpose of exploring, drilling, developing and operating on premises; including installation of pipelines, machinery, storage tanks and other equipment, necessary for production, storage, transportation and marketing of oil and gas and coal, copper or other minerals of any kind or nature and their components which may be produced from said premises or from other premises owned by CLO, or communitized with Trust land. Agricultural Lessee may recover crop and improvement damages, if any, for remaining term of the agricultural lease contract from said lessees, permittees, and assigns.

2.7. EASEMENTS.

CLO reserves and excepts to itself, its lessees, permittees, and assigns an access easement to other property held in Trust. CLO reserves the right to grant easements for access and other purposes across the lease premises.

2.8. WATER RIGHTS.

CLO reserves all water rights, except Lessee may use water necessary for domestic and livestock purposes. Irrigation, sale or release of water from lease premises is prohibited unless a separate water permit is granted by CLO.

2.9 PERSONAL RECREATIONAL USE.

Lessor and Lessee(s) agree(s) personal recreational use goes with the lease so long as there is no damage to lease premises or misuse as determined by the Real Estate Management Specialist for the CLO. Any violation will be considered a material breach and will result in action for damages and/or cancellation of the lease.

2.10. HUNTING USE.

Lessor and lessee(s) agree(s) hunting rights go with the agricultural lease so long as there is no exploitation, excessive depletion of the wildlife or misuse as determined by the Real Estate Management Specialist for the CLO. Wildlife management limits and policies will be at the sole discretion of the CLO. Any violation will be considered a material breach and will result in action for damages and/or cancellation of the lease.

III CONDITIONS

3.1. PERMANENT CONTRACT OBLIGATIONS.

Lessee can not be released from contract obligations except as provided by this contract or according to law. Debt cannot be reduced or canceled without full payment pursuant to Constitution and law.

3.2. PAYMENT, BOND, NON-PAYMENT.

All unpaid rent or monies due, including irrigation permits, shall bear interest at rate of sixteen percent (16%) per annum. If annual rent is not paid within 90 days of the due date, adequate bond or other security acceptable to CLO must be provided. The CLO may seek all available legal remedies and Lessee will be assessed legal fees involved in collection of rents, possession, or contract violation.

3.3. TAXES.

Lessee is required to pay ad valorem property taxes on any improvements and structures on Trust land.

3.4. INTERFERENCE BY LESSEE.

Lessee will not interfere with grantees, permittees or mineral lessees of CLO.

3.5. DISCLOSURE OF INTEREST.

Lessee shall notify CLO in writing within 5 days when any official or employee of CLO has acquired any direct or indirect interest in this lease.

3.6. HOLD HARMLESS; INDEMNITY.

Lessee agrees to indemnify CLO against all claims arising out of the use of the Land. Lessee shall promptly notify CLO of any claim.

3.7. SUBLEASES AND ASSIGNMENTS.

This lease may not be subleased or assigned without prior written consent of CLO.

3.8. LEASE INSPECTION.

CLO may enter upon lease premises at any time for inspection and exercise of rights reserved to CLO. If locks are placed on gates, keys must be furnished to CLO or its representative or CLO reserves the right to remove locks.

3.9. LEASE IMPROVEMENTS.

Lessee understands and agrees CLO can not pay Lessee for personal property or lease improvements. Improvements of any nature shall not be placed on or removed from lease without prior written consent of CLO. Lessee agrees to maintain with CLO a current and complete list of all Lessee owned improvements.

3.10. REMOVAL OF IMPROVEMENTS.

Lessee(s) agree(s) to remove their improvements at Lessee's expense within sixty (60) days after the contract terminates. Additional time for removal of improvements must be requested in writing by Lessee prior to the 60 day time for removal. Failure of the Lessee to request additional time prior to the expiration of the 60 day time period waives the ability to seek additional time to remove improvements. The CLO may, in its sole discretion, grant additional time to remove improvements; any grant of additional time must be in writing from an authorized CLO representative. Failure to remove the improvements within sixty (60) days, or such additional time granted in accordance with this lease, demonstrates Lessee(s)' intent to abandon the improvements and the improvements will be deemed abandoned. Improvements of value will be sold and the amount attained from the sale after cost of sale will be deducted from any amount owed by Lessee(s). Improvements deemed abandoned that are determined to be a detriment to the lease will be disposed of by the CLO and Lessee(s) agree(s) to pay for any cost incurred for disposal.

3.11. MAINTAIN IMPROVEMENTS.

Lessee agrees to maintain and repair CLO's and Lessee's improvements at Lessee's expense.

IV

CONSERVATION OF TRUST LANDS

4.1. CONSERVATION.

CLO and Lessee(s) agree to conserve and preserve Trust lands held by the State of Oklahoma.

4.2. TECHNICAL ASSISTANCE.

CLO agrees to provide technical assistance to Lessee through its Real Estate Management Division staff along with available conservation funds for approved special projects for preservation, conservation and management of Trust lands.

4.3. CONSERVATION CONDITIONS.

In the interest of preservation and conservation of Trust Land, Lessee agrees to operate lease according to following:

4.3.1. CROP MANAGEMENT.

Crop residue management and conservation cropping systems shall be required on all cropland of Trust as recommended by CLO based upon Universal Soil Loss Equation. (Example: no-till or minimum tillage) All planting, seeding and tillage operations on terraced land, except for springtooth harrowing, shall be done on contour of terraces. Cropland shall be managed in a husband-like manner to prevent weeds and erosion of land.

4.3.2. GRAZING.

Grazing of native grasslands shall be managed so desirable species of grasses and forbs are not overgrazed or depleted. The estimated annual stocking rate for this lease is shown in paragraph 1.1 of this contract. Animal stocking rate shall be reduced immediately as directed by CLO. A brush and weed control program shall be developed and implemented for each lease as required by CLO.

4.3.3. PASTURE.

Maintain improved pastures in a productive and vigorous condition. Maintenance measures shall consist of weed control, renovation, fertilization and management of grazing. Improved pastures may be baled for hay.

4.3.4. HAY MEADOWS.

Existing hay meadows may not be used as or converted to pasture land without prior written permission from CLO. Native meadows may not be grazed after baling until after a killing frost has occurred. Native hay meadows may not be cut after July 15 unless written permission is given by CLO.

4.3.5. PERMISSION.

Prior written permission from CLO will be required before any permanent pastures are plowed out, timber cleared or cut, or any sod or sprigs are removed from lease.

4.3.6. REPAIRS.

Lessee specifically agrees to maintain and repair all terraces and other conservation structures according to CLO's specifications.

4.3.7. EROSION AND TILLAGE.

Lessee agrees to control wind erosion by emergency tillage as needed or directed. Emergency tillage does not have to be done on contour of terraces.

4.3.8. BURNING.

No burning of cropland residues, fence row, native grass or improved pastures shall occur

without prior written consent from CLO.

4.3.9. WATER EROSION.

Prevention of wind and water erosion shall be required after peanut and cotton harvest each year. Methods shall include but are not limited to emergency tillage and cover crops.

4.3.10. ALFALFA AND HAY CROP.

Alfalfa or any perennial hay crop shall not be plowed out in last year of this lease without prior written permission from CLO.

4.3.11. DOUBLE CROPPING.

Double cropping shall not be permitted unless prior written permission is received from CLO. Lessee is afforded the opportunity to harvest one crop per year of lease contract. Violation of this paragraph will result in crop being disked or plowed under at Lessee's expense. A fee will be charged at least equal to annual rental charged for opportunity to harvest additional crop or pay additional years rental at discretion of CLO.

4.3.12. SOIL CONSERVATION PLANS.

Lessee shall implement all soil conservation plans for this lease. Special conservation requirements shall take precedence over general soil conservation agreement. Any variations must be approved in writing and attached to this contract.

4.3.13. REPRESENTATIVE MEETING.

Lessee agrees to meet CLO's representative on request.

4.3.14. CROP ALLOTMENTS.

It is understood crop allotments run with the land and are not property of Lessee. Lessee agrees to comply with regulations of U. S. Department of Agriculture pertaining to crop allotments and base preservation, and further agrees to maintain full crop allotment.

4.4. SPECIAL CONSERVATION CONDITIONS:

4.5. INJURY TO LAND.

Lessee will not, without prior written permission from CLO: irrigate; cut trees or timber; remove soil, stone or minerals; permit waste, trespass, trash disposal, littering, erosion or pollution; Lessee(s) will promptly report damage to lease premises or minerals to CLO.

V
REMEDIES

5.1. MITIGATION, RELET.

CLO may relet the property to mitigate Lessee(s) damages (including rent) without prejudice to or waiver of its rights to hold Lessee(s) liable for all costs, damages, entire contract rentals, and legal fees less amounts realized from mitigation.

5.2. BIND, BENEFIT, COMPLETE AGREEMENT, CHANGES.

All terms and conditions of this lease shall be binding on CLO and Lessee(s), their heirs, devisees, administrators, executors, successors and assigns. This lease document contains the complete agreement between the parties; any changes to the lease must be agreed to and approved in writing by the parties.

5.3. SEVERABILITY, SAVINGS.

If any provision of this Agreement is determined to be invalid or unenforceable to any extent, the remainder of the provisions will not be affected and will be valid and enforceable to carry out, to the fullest extent possible, the original intent of the parties as permitted by law.

5.4. BREACH OF CONTRACT.

Violation by Lessee of any provision of this lease constitutes material breach. Lessee may be disqualified from leasing other Trust Lands. Lessee shall be held liable for all costs to repair damages during this lease. By statute Commissioners shall refuse to accept any bid on agricultural lease where party placing the bid is in default of any rental due or in violation of this or any prior lease contract.

VI
NON-COLLUSION

6.1. NON-COLLUSION STATEMENT.

Lessee states as a material condition of the contract (s)he has not paid, given or donated or agreed to pay, give or donate to any officer or employee of the State of Oklahoma any money or other thing of value, either directly or indirectly, in obtaining this Lease. Furthermore, (s)he did not conspire or collude with, give or receive anything of value to, or agree to give or receive anything of value to any bidder or potential bidder relative to obtaining this Lease.

IN WITNESS WHEREOF, Lessee(s) and CLO have executed and approved this contract of 10 pages on the date(s) indicated.

BAKER IRRIGATION & PUMP

A DIVISION OF GLB METERS
PO BOX 247 1529 WEST 10TH
HUGOTON, KANSAS 67951
620-544-8064

WE HAVE TESTED FLOW RATES ON WELLS FOR YEARS
AND I HAVE TO SAY THE WELLS ON THE DEWEY RANCH
ARE BY FAR THE MOST PRODUCTIVE WELLS WE'VE SEEN.

BEARING IN MIND THE PUMPING LEVELS DOWN HOLE,
THE COST TO OPERATE THE WELLS WILL BE MINIMAL
COMPARED TO DEEP WELLS PUMPING A FOURTH THE
WATER THESE ARE PUMPING.

THE WELLS WERE TESTED ON 2-21-2011, NONE OF THE
WELLS PUMP AIR. THE RESULTS ARE AS FOLLOWS:

- (Tract 5) CIRCLE 3 - 2865 GPM @ 1760 RPM & 31 PSI
- (Tract 7) CIRCLE 4 - 2658 GPM @ 1641 RPM & 41 PSI
- (Tract 1) CIRCLE 7 - 2989 GPM @ 1756 RPM & 18 PSI
- (Tract 3) CIRCLE 5 - 2512 GPM @ 1741 RPM & 30 PSI
- (Tract 13) NORTH WELL - 757 GPM @ 1317 RPM

**OKLAHOMA WATER RESOURCES BOARD
REGULAR PERMIT TO TAKE AND USE GROUNDWATER**

Permit No.: 2004-519
Date of Filing: February 17, 2004
County: Beaver
Groundwater Basin: Ogallala - Panhandle Region

THE OKLAHOMA WATER RESOURCES BOARD hereby issues regular groundwater permit number 2004-519 in the name of D F & D, LLC whose address is 6306 20 Road, Cimarron, KS 67835. The permit authorizes the taking and use of 2,720 acre-feet of groundwater per calendar year from one well located in the SW NE NE of Section 23, T4N, R28ECM, Beaver County for the purpose of irrigation. The land dedicated to this permit totals 1,360 acres and is located as follows: 80 acs. in the E2 SE of Section 10; 400 acs. in Section 11; 480 acs. in Section 14; 320 acs. in the E2 of Section 23; and 80 acs. in the N2 NE of Section 26; all in T4N, R28ECM, Beaver County.

This allocation is subject to the following terms, conditions and limitations:

1. Any change in well locations from those listed above must be approved by the Board and shall be subject to existing or future well spacing orders of the Board;
2. If a proposed well is not drilled and completed within one year of approval of the well location, groundwater will no longer be authorized to be withdrawn from that location;
3. All water use reports furnished to the permit holder shall be completed and returned to the Board within 30 days of their receipt;
4. The equal proportionate share of fresh groundwater per acre of land that overlies this groundwater basin is 2.0 acre-feet per surface acre.

All other terms and provisions set forth in the application shall be incorporated and made a part of this permit.

Acceptance of this permit shall be acknowledgment and agreement that the permit holder will comply with all the terms, conditions and limitations required by Oklahoma law, including the Oklahoma Water Resources Board rules concerning and taking and use of fresh groundwater and will allow Oklahoma Water Resources Board staff to enter the property described in this permit during reasonable business hours for well and water use inspections.

Date permit approved: June 8, 2004

OKLAHOMA WATER RESOURCES BOARD

Duane A. Smith, Executive Director

OKLAHOMA WATER RESOURCES BOARD
*** AMENDMENT TO REGULAR PERMIT TO TAKE AND USE GROUNDWATER**

Permit Number: 1999-519

Date Filed: March 1, 1999

County: Harper

Groundwater Basin: Alluvium & Terrace Deposits of the North Canadian River Phase I

Original Date of Issue: June 8, 1999

The OKLAHOMA WATER RESOURCES BOARD hereby amends **Regular Groundwater Permit No. 1999-519** in the name of D F & D, L.L.C. whose address is 6306 20 Road, Cimarron, KS 67835. The permit authorizes the taking and use of 5,408 acre-feet of groundwater per calendar year from three wells located as follows: one well location in the SW SE SE of Section 22* (see condition no. 4 below), one existing well in the SW NW SW of Section 25*; and one existing well in the NW SW NE of Section 26*; all in T27N, R26WIM, Harper County for the purpose of irrigation. The land dedicated to this permit totals 5,408 acres and is located as follows: 135 acs. in the E2 of Section 9; 283 acs. in Section 10*; 640 acs. in Section 13; 160 acs. in the E2 E2 of Section 14*; 160 acs. in the NW of Section 15*; 172 acs. in the E2 of Section 16; 170 acs. in the E2 of Section 21; 160 acs. in the NW and 320 acs. in the S2 of Section 22*; 320 acs. in the S2 of Section 23*; 320 acs. in the S2 and 160 acs. in the S2 N2 of Section 25*; 320 acs. in the N2, 160 acs. in the SW, 80 acs. in the E2 SE and 40 acs. in the NW SE of Section 26*; 320 acs. in the N2, 160 acs. in the SE and 80 acs. in the N2 SW of Section 27*; 128 acs. in the E2 of Section 28; 80 acs. in the N2 NE of Section 34; 80 acs. in the N2 NW, 160 acs. in the NE, 80 acs. in the N2 SE, 40 acs. in the SE SE and 40 acs. in the NE SW of Section 35; and 640 acs. in the Section 36*; all in T27N, R26WIM, Harper County.

This allocation is subject to the following terms, conditions and limitations:

1. Any change in well locations from those listed above must be approved by the Board and shall be subject to existing or future well spacing orders of the Board;
2. If a proposed well is not drilled and completed within one year of approval of the well location, groundwater will no longer be authorized to be withdrawn from that location;
3. All water use reports furnished to the permit holder shall be completed and returned to the Board within 30 days of their receipt;
4. The existing well in the SW SE SE of Section 22 is not authorized because it was completed to withdraw groundwater solely from an aquifer below the North Canadian Phase I Groundwater Basin. The existing well can be used as the authorized well under this permit if it is perforated so that groundwater can be withdrawn from the North Canadian Phase I, or a new well in the same ten-acre tract could be drilled and completed to withdraw groundwater from the North Canadian Phase I; and
5. The equal proportionate share of fresh groundwater per acre of land that overlies this groundwater basin is one acre-foot per surface acre.

All other terms and provisions set forth in the application shall be incorporated and made a part of this permit.

Acceptance of this permit shall be acknowledgment and agreement that the permit holder will comply with all the terms, conditions and limitations required by Oklahoma law, including the Oklahoma Water Resources Board rules concerning the taking and use of fresh groundwater.

Dates Amended:

February 22, 2002; February 27, 2004; May 11, 2004; and January 10, 2006

OKLAHOMA WATER RESOURCES BOARD

Duane A. Smith, Executive Director

**OKLAHOMA WATER RESOURCES BOARD
REGULAR PERMIT TO TAKE AND USE GROUNDWATER**

Permit No.: 1974-438A
Date Filed: October 10, 1974
County: Harper
Groundwater Basin: Alluvium & Terrace Deposits of the North Canadian River
Original Date of Issue: January 14, 1975

The OKLAHOMA WATER RESOURCES BOARD hereby reissues **Regular Groundwater Permit No. 1974-438A** to reflect a change of ownership to **DF & D, L.L.C.** whose address is 6306 20 Road, Cimarron, KS 67835. The permit is in all other respects unchanged and authorizes the use of 471.67 acre-feet of groundwater per calendar year. The water is to be withdrawn from four wells located as follows: one each in the NE SE SE and SW SE SE and two in the SE NE SE of Section 12, T27N, R26W1M for the purpose of irrigation. The land dedicated to this permit totals 471.67 acres and is located in the S2 and NW of Section 12, T27N, R26W1M. All other terms and provisions set forth in the application are hereby incorporated and made a part of this permit.

This allocation is subject to the following terms, conditions, and limitations:

- (a) Changes in well locations from those listed above shall be approved by the Board and shall be subject to existing or future well spacing orders of the Board.
- (b) Water use reports mailed to the applicant during January of each year must be completed and returned to the Board within thirty (30) days receipt.
- (c) The equal proportionate share of fresh groundwater per acre of land that overlies this groundwater basin is one acre-foot per surface acre.

Acceptance of this permit shall be acknowledgement and agreement that the permit holder will comply with all terms, conditions, and limitations required by Oklahoma law including the Oklahoma Water Resources Board rules concerning the taking and use of fresh groundwater.

DATE: October 28, 2005

OKLAHOMA WATER RESOURCES BOARD

Duane A. Smith, Executive Director

**OKLAHOMA WATER RESOURCES BOARD
PRIOR RIGHT TO TAKE AND USE GROUNDWATER**

Prior Right: 1939-087

Priority Date: July 31, 1936

County: Harper County

Basin: Alluvium & Terrace Deposits of the North Canadian River

The OKLAHOMA WATER RESOURCES BOARD hereby recognizes **Groundwater Prior Right Number 1939-087** to reflect a change of ownership to Cimarron Dairy LLC whose address is 6306 - 20 Road, Cimarron, KS 67835. This prior right is in all other respects unchanged and authorizes the use of nine acre-feet of groundwater per calendar year for irrigation of three acres of land located in the NW of Section 13, T27N, R26W1M, Harper County, from wells located in the same legal description.

This allocation is subject to the following terms, conditions, and limitations:

- (a) A replacement well may be drilled on land relied on to establish a prior right without prior approval from the Executive Director of the Board if the replacement well is further than one-thousand three hundred twenty feet (1,320') from lands owned by another, or if it is within two-hundred fifty feet (250') of the replaced well; a legal description of the replacement-well location to the nearest 10 acre tract must be submitted to the Board within sixty (60) days of completion.
- (b) Water use reports mailed to the applicant during January of each year must be completed and returned to the Board within thirty (30) days of receipt.

DATE: June 5, 2002

***RE: Groundwater Right Information for D F & D, L.L.C. Water Rights
Beaver and Harper Counties***

You contacted me regarding the proposed sale of lands associated with water rights in the name of D F & D, L.L.C. You particularly asked about transferring and amending existing water rights.

Currently the only permits in the name of D F & D, L.L.C., are what we call "Regular" permits. This means that an equal proportionate share has been established for the lands that have been dedicated to these water rights. The equal proportionate share for the lands in Harper County has been set at one acre-foot per acre of land. The equal proportionate share for the lands in Beaver County has been set at two acre-feet per acre of land.

To address the transfer of water rights question, once the land sales are completed, we will be able to transfer any or all of the water rights into the new owners' names. Water rights can be transferred in their entirety or can be split among several owners. If the entire tract of land dedicated to the water right is purchased by one owner, that water right will be transferred wholly to the new owner. If the dedicated lands to one water right are broken up into several tracts and are sold in several parcels, the water right will be split proportionately (land and water). Each new owner will be required to submit: 1) "Petition to Transfer Ownership" form; 2) a copy of the deed; and 3) \$55.00 filing fee.

If a parcel of land that is transferred does not have a permitted well location or locations, a new well or wells can be added by filing an amendment. Some additional well amendments can be completed administratively and others will require certified mail notice and newspaper publication. This will be determined on a case-by-case basis. If a new owner would like to amend the water right to add additional water, land, or change the use, this will require the full-blown amendment process which requires certified mail notice and newspaper publication.

If you have any additional question, please do not hesitate to give me a call a (405) 530-8849.

HOW TO OBTAIN A WATER USE PERMIT FROM THE OKLAHOMA WATER RESOURCES BOARD

Basic Requirements and Points of Law Concerning Ownership and Use of Oklahoma's Surface and Groundwater Resources

- All uses of surface and groundwater in Oklahoma—for other than domestic/household purposes—must be permitted by the OWRB.
- **Groundwater** use is a legal property right tied to ownership of the land. Applicants must satisfy four legal requirements in order to obtain a groundwater use permit:
 - the applicant owns or leases the land from which the water will be withdrawn;
 - the dedicated land overlies a groundwater basin;
 - the water will be put to a beneficial use; and
 - waste of the water would not occur.
- **Surface water** is publicly owned. Before permitting its use, the Board must determine that:
 - unappropriated water is available in the amount applied for;
 - the applicant has a present or future need for the water;
 - the applicant intends to put the water to a beneficial use;
 - the proposed use would not interfere with domestic/existing appropriate uses; and
 - if use of the water is to occur outside the stream system of origin, it would not interfere with existing or proposed beneficial uses within the stream system.

"Domestic use" means the use of water by a natural individual or by a family or household for household purposes, for farm and domestic animals up to the normal grazing capacity of the land whether or not the animals are actually owned by such natural individual or family, and for the irrigation of land not exceeding a total of three (3) acres in area for the growing of gardens, orchards, and lawns [82:105.1(B)]. Domestic use also includes: (1) the use of water for agriculture purposes by natural individuals, (2) use of water for fire protection, and (3) the use of water by non-household entities for drinking water purposes, restroom use, and the watering of lawns, provided that the amount of stream water used for any such purposes does not exceed five acre-feet per year.

Steps for Obtaining or Amending Long-term Water Rights

- The applicant completes and files the permit application.
- OWRB staff review the application for correctness and completeness.
- The applicant makes proper public notice.
- If no protest is filed and the application is deemed complete, it is presented to the Board for approval.
- If a protest is filed, an administrative hearing is held prior to Board consideration.

Processing of an application for long-term use of water requires 60 to 90 days from the date of filing, if there are no protests or other complications. Protested applications normally require an additional 30 to 60 days prior to Board consideration. Board meetings are usually held the second Tuesday of every month in Oklahoma City.

Public Notice and Notification

- All applications for long-term use of surface or groundwater are required to publish notice once a week for two consecutive weeks in a local newspaper of general circulation. Normally, a two-week period following the final publication date is required to allow time for comments or protests to be filed.
- Applications for long-term use of groundwater are required to notify, by certified mail, all landowners within ¼-mile of each 10-acre tract wherein wells are proposed (or as directed by the Board).

Additional Application Requirements

- Applications for groundwater use permits must include:
 - The application form (completed, signed and notarized) containing the following information:
 - name & address of applicant;
 - amount of water requested;
 - purpose for which water will be used;
 - legal description of land dedicated to the application; and
 - legal description of wells dedicated to the application.
 - A plat indicating:
 - dedicated land;
 - dedicated wells and all other water wells within ¼-mile of each 10-acre tract wherein wells are proposed; and
 - proposed area of use.
 - A plat indicating all landowners within ¼-mile (or as directed by the Board) of each 10-acre tract wherein

Water wells must be drilled by a well driller licensed by the OWRB and well construction must comply with minimum standards set by the Board.

- wells are proposed.
 - A copy of the deed or other proof of ownership of the dedicated land, or a copy of the owner's agreement giving the applicant the right to withdraw water from the dedicated land.
 - The required filing fee.
 - If the application is for water for swine use, additional setback information is required.
- Applications for **surface water use permits** must include:
 - The application form (completed, signed and notarized) containing the following information:
 - name & address of applicant;
 - amount of water requested;
 - purpose for which water will be used;
 - where the water will be diverted from;
 - method(s) of diversion;
 - legal location of diversion point(s); and
 - legal location of intended area of use.
 - A plat indicating:
 - location of diversion point;
 - location and size of all surface water bodies;
 - location of area of use; and
 - location of water transport lines.
 - A written justification for a present and future need for the water.
 - The required filing fee.

Oklahoma stream water law recognizes a priority for domestic use and a priority in time for existing stream water rights. All stream water permits contain a condition that they shall not interfere with domestic use or with prior appropriative rights.

Provisional Temporary Permits

- A provisional temporary permit is a nonrenewable permit granted by the Board's Executive Director for a period not to exceed 90 days. The permit may be issued summarily and immediately at the discretion of and upon administrative approval by the Executive Director. It is not necessary to hold a hearing, publish application data or notify adjacent landowners.
- Applications for **90-day provisional temporary permits**, both groundwater and surface water, must include:
 - The application form (completed, signed and notarized) containing the following information:
 - name & address of applicant;
 - amount of water requested (acre-feet);
 - purpose for which water will be used;
 - legal location of diversion points or water wells;
 - legal location of area of use;
 - name of lease (if for drilling of an oil or gas well); and
 - completed plat as directed on the application.
 - The required filing fee.
 - A deed or letter from the landowner authorizing access to: the diversion point or water well location, land on which water lines will be located, and the area of use.
 - If the application is for the use of groundwater for swine use, additional setback information is required.

If you need assistance in completing a water rights application or have questions concerning the use of state waters, we encourage you to contact one of the following OWRB Planning and Management Division or Field Office employees:

Planning and Management Division, Oklahoma City Office:

- Bob Sandbo, Permitting Section Head
- Mary Nell Brueggen, Permitting Section, Administration
- Rick Wicker, Permitting Section, Surface Water & Groundwater
- Bonnie Crissman, Permitting Section, Groundwater
- Angie Taylor, Permitting Section, Groundwater

Oklahoma Water Resources Board FACT SHEET

Determination of Maximum Annual Yield

In Oklahoma, groundwater belongs to the land surface owner and may be used subject to reasonable regulation by the OWRB. State law provides for the OWRB to conduct hydrologic investigations of "groundwater basins" (distinct underground bodies of water under contiguous land having substantially the same geological and hydrological characteristics and yield capabilities) and to determine amounts of water that may be withdrawn by permitted users.

The "maximum annual yield" of a groundwater basin is a term used to describe the total amount of fresh groundwater that can be withdrawn while allowing a minimum 20-year life of the basin. Once the maximum annual yield has been established, the amount of water allocated to each permit applicant will be proportionate to the amount of land owned or leased by that applicant. This is referred to as the landowner's "equal proportionate share."

Oklahoma water law states that certain factors be considered in the determination of the maximum annual yield of a major groundwater basin: total land area overlying the basin; the amount of water in storage in the basin; the rate of recharge to the basin and total discharge from the basin; transmissivity of the basin, and the possibility of pollution from natural sources. Furthermore, for a sensitive sole source groundwater basin, the maximum annual yield will ensure that the natural flow of water from springs or streams emanating from the basin will not be reduced. As of 2009, the Arbuckle-Simpson is the only designated sole source groundwater basin.

Water-level measurement in the Arbuckle-Simpson aquifer.

The first step in determining the maximum annual yield of a major groundwater basin is to conduct a

hydrologic investigation or survey. This investigation is usually performed for the OWRB by an outside expert agency or institution such as the U.S. Geological Survey. To obtain the necessary information to evaluate the maximum annual yield, groundwater hydrologists require information on the geology and the hydrogeologic framework (potentiometric maps, hydraulic conductivity, transmissivity, storage properties, and spatial and temporal distribution of rates of groundwater recharge and discharge). Hydrologic information on precipitation, evaporation, surface water runoff, water-level, and geochemical data are used to analyze the movement of groundwater through the system. Most investigations entail the construction of a digital groundwater flow model, which is used to conceptualize the groundwater flow system and to evaluate impacts of water withdrawals on the aquifer.

After the hydrologic investigation is complete, the OWRB makes a tentative determination of the maximum annual yield of the basin. Copies of the results of the investigation are made available for public review and one or more hearings are scheduled so that citizens can present evidence supporting or contradicting the evidence behind the tentative determination.

Maximum Annual Yield Determination Process

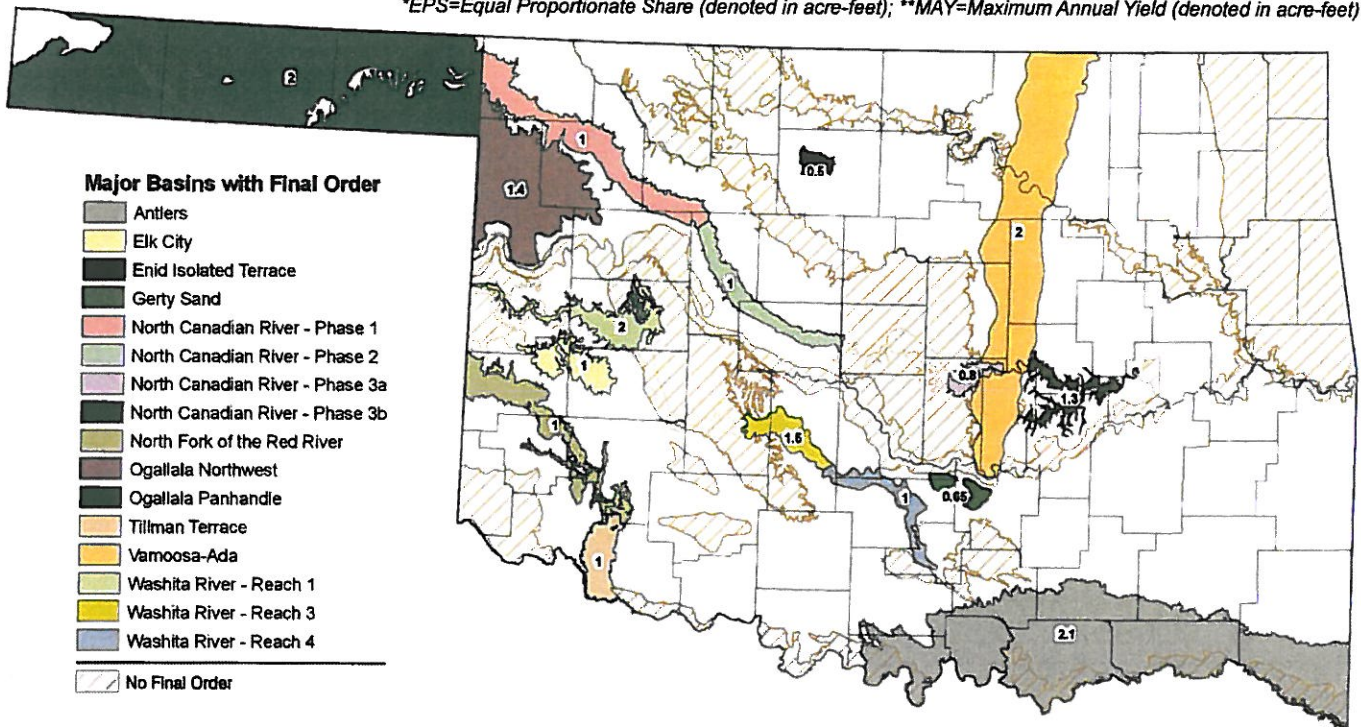

When the hearings are completed, the OWRB evaluates all the evidence and ascertains the factors stated in the law, in the process of making the final maximum annual yield determination. The final determination is issued in a "final order" containing findings of fact and conclusions of law. Thereafter,

based on the newly calculated equal proportionate share, regular permits are issued to holders of existing temporary permits and to applicants for new permits.

Equal proportionate shares have yet to be determined on many major groundwater basins in the state. For those aquifers, "temporary" permits are granted to users allocating two acre-feet of water per acre of land per year. Temporary permits authorize use for one year at a time and must be revalidated annually.

Ogallala - Panhandle	03/12/2002	2	2,285,212
Ogallala - Northwest Region	03/12/2002	1.4	1,198,512

*EPS=Equal Proportionate Share (denoted in acre-feet); **MAY=Maximum Annual Yield (denoted in acre-feet)

Equal Proportionate Share

When a maximum annual yield has been determined, the OWRB is required by law to distribute the maximum annual yield equally across the basin or subbasin. "Equal proportionate part or share" is defined as the maximum annual yield of water from a groundwater basin or subbasin that is allocated to each acre of land overlying the basin or subbasin. In other words, it is the portion of the maximum annual yield that is equal to the portion of the land overlying the fresh groundwater basin or subbasin which is owned or leased by an applicant for a regular permit.

Each groundwater user is entitled to withdraw an equal share of water proportional to the amount of land owned.

WELL LOCATION:

Are there any structures or wastewater lagoons within 300 feet of the well? Yes No

Distance from the nearest possible source of pollution. (A minimum of 50 feet is required if the well is up-gradient, 75 feet if the well is level and 100 feet if the well is down gradient.)

Distance _____ feet from type or source _____

Location of source from well: Up-gradient Level Down-gradient

Has this well been disinfected after completion of work? Yes No

Is this well a replacement well? Yes No If Yes, was abandoned well properly plugged? Was plugged Was not plugged

PLUGGING DATA:

Date Plugged _____ Tremied? Yes No

Backfilled From _____ feet to _____ feet with _____

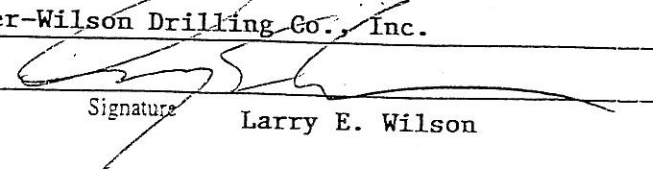

Grouted From _____ feet to _____ feet with _____

Cement Grouted From _____ feet to _____ feet

CERTIFICATION

The work described above was done under my supervision. This report is correct to the best of my knowledge.

Steps in Selling County Land /Real Estate

1. Board of Commissioners **adopt resolution to sell real estate** not needed for courthouse or jail purposes of county - minutes noted and published when adopted.
2. **Copy of resolution** certified by County Clerk- to **D.A.** then to **District Judge** and he appoints **3 appraisers to appraise.**
3. **Appraisement returned** by appraisers to Board of Commissioners - upon return of appraisement board of commissioners must **give notice in newspaper for 2 weeks** that said real estate to be sold -
Publication to include;
 - a. **Legal description**
 - b. **Method of sale**
 - c. **Date & Time of sale**
 - d. **Appraisment amount- must bring 80% of appraised value**
 - e. **Buyer pay publication fees**
4. **15 days after 1st publication in paper** the commissioners can sell property- public auction or sealed bids are opened.
 - A.) Must bring 80% of its appraised value and the board of commissioners shall have power to reject any and all bids
