

Red Horse Inn

This 600 foot rustic structure is situated directly next to the “Big House”, and overlooks the manicured ponds. Visitors will be blown away by the quality of the interior finishes, a trait typical of the historical structures cared for by the Morris family. This building has all wood flooring with a bar, sunroom, and fireplace. There is a bedroom on the second story with a full bath containing copper lined bath tub. This structure makes for the perfect guest house for visitors wanting to be in nature.
