

# The Stables

This original New England Style horse stable was converted to serve as a summer retreat for the family for close to 100 years. It features 6 bedrooms with 4 full and 2 half bathrooms. Recently, much of the Stable had been converted into office space for Life Action Ministries, which includes 15 plus offices, a recording studio, and workout room. Restored stable area features turn of the century carpentry and beautiful woodworking. This property is at the heart of the Morris farms property, and gives the buyer and chance to own a piece of the family history.
